# Sony's Featured Projectors for K-12 Education

## VPL-CX125

Suggested Education Price: \$1619.00

### Focus on better presentations.

For any teacher who wants to focus on better ways to present educational material, this is an ideal choice. This projector performs beautifully in mid-sized classes and small auditoriums, incorporating a new lens that produces high resolution, crisp images at 3000 lumens brightness. Its 3LCD panel system projects images that are bright, natural and gentle on the eyes, so students can focus on the content.

- 3000 Lumens Brightness
- XGA Resolution
- Network Connectivity
- 9 lb 1 oz
- Ceiling Mountable

## VPL-CX150

Suggested Education Price: \$1619.00

### Intelligent features for education.

Designed with highly intelligent and intuitive features, the VPL-CX150 projector performs in a class all its own. It provides native XGA resolution and 3500 lumens brightness, which produces high contrast, high-resolution images for dazzling presentations. It also accepts a wide range of input signals, including both PC and video sources and offers flexible installation choices, making it ideal for mid-sized classrooms and small auditoriums.

- 3500 Lumens Brightness
- XGA Resolution
- 9 lb 1 oz
- Ceiling Mountable

## VPL-CX155

Suggested Education Price: \$1889.00

### A bright idea for a teaching tool.

This projector's 3500 lumens brightness feature is a bright idea all its own, delivering clear, crisp high quality, high contrast images in native XGA resolution. Add other features, such as a wide range of input options, flexibility of installation, anti-theft functions, and the ability to connect to a LAN network, and the result is a dynamic teaching tool that's just right for mid-sized classrooms and small auditoriums.

- 3500 Lumens Brightness
- XGA Resolution
- 9 lb 1 oz
- Network Connectivity
- Ceiling Mountable

## VPL-CW125

Suggested Education Price: \$2069.00

### At the head of its class.

The exceptional features built-in to this compact WXGA resolution projector put it at the head of its class. This projector employs 3LCD technology with Sony's new Advanced Crisp Focus glass lens, enhancing the already sharp and clear image. At 3000 lumens brightness, this top performer can handle almost any presentation, but it is particularly ideal for presentations from a wide-screen source such as 16:9 aspect-ratio video or a WXGA PC. Offering a variety of inputs and versatility in connectivity, security and networking, this projector scores high in any educational setting.

- 3000 Lumens Brightness
- WXGA Resolution
- 9 lb 1 oz
- Network Connectivity
- Ceiling Mountable

## Sony has its Eye on Education – so educators can keep an eye on expenditures.

With the Eye on Education<sup>SM</sup> program, Sony offers educational institutions competitive pricing, trade-ins, extended lamp warranties, exceptional service and financing solutions for Sony projectors, and LCD display products. Through this progressive program, educators

can visually enhance the learning experience while keeping an eye on the bottom line – and that's a smart move for any organization. For more information go to:
