Product Description: Video Graphic Printer
Model: UP-895, UP-895MD

Dear Mr. Kitamura:

NOTICE OF AUTHORIZATION TO APPLY THE UL CLASSIFICATION MARK FOR THE US AND FOR CANADA

This letter temporarily supplements the UL Follow-Up Service Inspection Procedure.

In response to your fax dated August 16, 1999 we have opened Project 99ME42787 with a cost limit of \$7500. We have completed this engineering investigation and find the product complies with the applicable requirements.

This letter serves as authorization to apply the UL Classification Mark to the above product which is constructed identical to the unit which was submitted to UL for this investigation. The UL records covering the products will be in the Follow-Up Services Inspection Procedure, File E167351, Vol. 2, and File E73362, Vol. 55.

To Provide the manufacturer with the intended authorization to use the UL Classification Mark you, the Applicant, must send a copy of this Notice to each manufacturing location covered by a UL Follow-Up Service Procedure.

This authorization is effective only for 90 days from the date of this Notice. Records covering your product are now being prepared and will be sent to you in the near future.

Products produced which bear the UL Mark shall be identical to those which were evaluated by UL and found to comply with UL's requirements. If changes in construction are discovered, authorization to use the UL Mark may be withdrawn and products that bear the UL Mark may have to be revised (in the field or at the manufacturer's facility) to bring them into compliance with UL's requirements.

If we can be of further assistance, please do not hesitate to contact us.

Very Truly Yours,

Richard Dolle
