## For DSLR

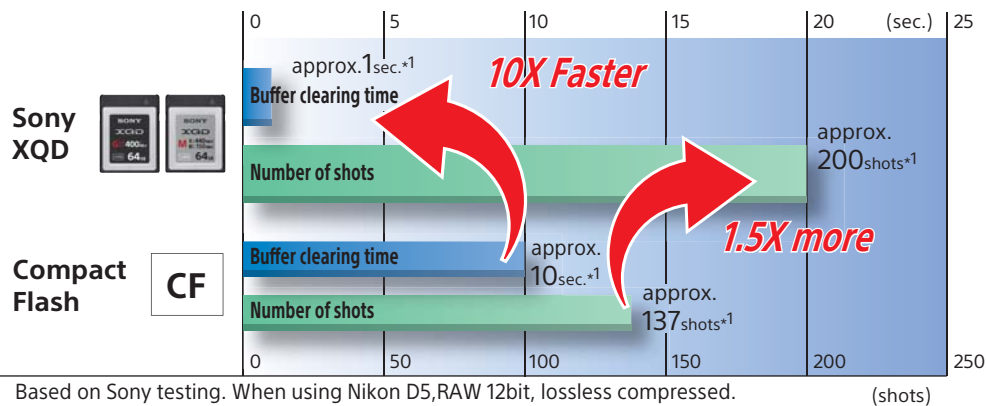

### Get the most of Burst Shooting

The superior writing speed of G Series XQD cards enables continuous shooting of up to 200 RAW images. With a shorter buffer clearing time, the ingest process is faster minimizing missed shooting opportunities.

Nikon D5 Nikon D500

#### Number of continuous shots and buffer clearing time

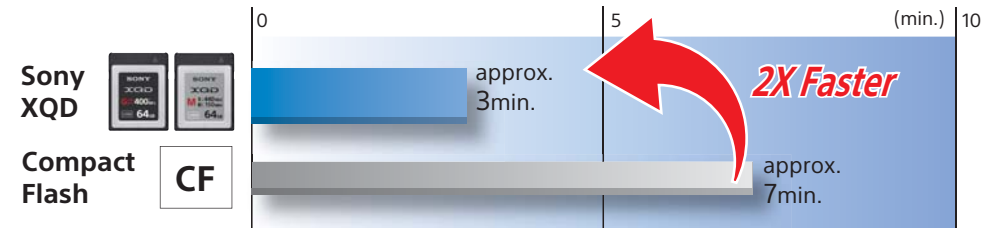

### Fast data transfer to PC

Using Sony's XQD/SD card reader or USB adapter which ensures the best compatibility with Sony's XQD cards, dramatically reduces data backup time for more efficient work flow.

#### Back up stored data on 64GB card

## For 4K Video Camera

### Dependable 4K Video Recording

Featuring a newly developed controller and a unique 'EB Stream' function enabling stable high frame 4K video recording while avoiding speed degradation. 128 GB model allows up to approximately 20 minutes of 4K XAVC Intra 422 60p (600 Mbps) recording with Sony's 4K video cameras.

PXW-Z100

PXW-FS7

### Extremely Durable Shell Structure

Increased shell strength thanks to Sony's unique techniques improves durability and recessed contact pins protect them from damage, dust or electrostatic shock for more reliable use even in harsh environments.
